1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 29-41, 48-56, drawn to a first cell unit/method of producing.

Group II, claims 42-47, drawn to a second cell unit.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group II includes a sealing material that protrudes at the terminal end of the cell, which limitation is not part of the Group I cell/method of producing.

3. During a telephone conversation with Peter Ludwig on January 9, 2004 a provisional election was made with traverse to prosecute the invention of Group I, claims 29-41 and 48-56. Affirmation of this election must be made by applicant in replying to this Office action. Claims 42-47 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1745

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the cells connected at the same edges of the circuit board as set forth in both claims 25 and 41 must be shown or the features canceled from the claims. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

*The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.*

7. Claims 25 and 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims both recite the term "optionally". This is indefinite terminology because it is not clear whether the cells are connected to one edge of the circuit board or the cells are connected to two or more edges. Clarification is required.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Belcher et al. show a capacitor having two circuit boards which move in relation to the capacitor.

9. The following is an examiner's statement of reasons for allowance: none of the prior art of record anticipate the claimed cell unit/method of producing a cell unit wherein two or more cells are joined by connections to a circuit board wherein the cells are movable to a position against one or both sides of the board to protect circuitry on the board. The prior art does not teach such a configuration of cells with a circuit board.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 571-272-1287. The examiner can normally be reached on Monday-Thursday from 6:15-3:45.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
